AUDIOCUPS

NOISE-EXCLUDING ENCLOSURE FOR AUDIOMETER HEADPHONES

EASY TO INSTALL EASY TO FIT

No threshold shift. World patented design eliminates calibration changes as the TDH-39 and cushion rest directly on the pinna.

GET THE BEST FOR LESS

Independent Laboratory evaluation shows the AUDIOCUPS to give better attenuation results than other leading noise excluding audiometer headsets tested. Complete reprint of this comparative report sent on request.

ALL NEW **Do it yourself**

INSTA-MOLD

The Most Perfect Earmold Or Noise Protector In Minutes To Lower Attenuation And Stop Feedback

Why INSTA-MOLD? We formulate and compound our own silicone products under strict quality control.

Only INSTA-MOLD manufactures a complete instant silicone process for Earmold Prosthesis.

Our finished product is a true silicone and does not contain impurities which could eventually lead to inflammation or foreign-body reaction in the ear.

ALL NEW INSTA-MOLD is tough, durable, non-toxic and hygienically prepared with your client's ears in mind.
